

Cynthia Drake
Complete EDI Solutions
12/7/2002

To Whom it may concern,

Jonathan Kenyon worked as an EDI implementer responsible for onboarding new Trading Partners from discovery to production. He has excellent EDI knowledge in which was able to implement multiple projects at a time. Jonathan works great with Clients on training and problem solving.

Jonathan worked with our development team on writing an EDI Connector that processes EDI transactions using Workato.

I believe Jonathan to be a great asset to our company.

Sincerely,
Cynthia Drake CTO
